I think this course would be very beneficial if it was approached differently. It is labeled as an intro course but we started with material that was far too difficult to even comprehend. The grading policy was also extremely vague and did not follow what was presented on the course syllabus. Overall, sadly I have gained very little because of the lack of background information.

**What do you like about the instructor and/or lab component of the course?  
(Use back of form if additional space is needed)** I love law

The instructor tries and teach real world example in class and also make cool stuff on his own time. I appreciate his tenacity when it comes to solving doubts and solving a problem. In class we would hear anecdotes of a lot of his trial

Integrated Science and Technology Evaluation

**What do you like about the instructor and/or lab component of the course?**  
**(Use back of form if additional space is needed)** He really know

what he is teaching very well.

But the only thing that I have comment about is attendance because if student late for less than 8 minutes he will not get the point
