**What do you like about the instructor and/or lab component of the course?
(Use back of form if additional space is needed)** Taking this class

made me want to learn programming but I don't think the class time was enough. By the time we got started we only have 20 minutes and then class was over. I plan on trying to expand my knowledge of programming in the future.

Dr. Benton is a great, inspiring teacher. I wish there was more of a goal for the course. I don't really know how to use/do it on my own. I understand how to code the specific tasks we completed in class. I just don't know how to apply it.

I liked that Morgan would give you time to figure out the problem and then would go through and explain how to work it. This was helpful since I usually over complicate things so I was able to see a new/other way to approach it.
